Dr. Gursev Sandlas

Pioneering Pediatric Robotic Surgery & Advanced Urology

About Dr. Gursev

Dr. Gursev Sandlas is a globally recognized Pediatric Surgeon and Urologist with over two decades of clinical excellence. As a pioneer in the field, he leads India's premier comprehensive Robotic Pediatric Surgery program, combining advanced technology with compassionate, patient-centered care.

20+	5,000+	#1
Years Experience	Successful Surgeries	Robotic Pediatric Expert

Clinical Expertise

Providing world-class surgical solutions for infants, children, and adolescents:

- **Pediatric Urology:** Specialized care for complex kidney, bladder, and genital conditions.
- **Robotic-Assisted Surgery:** Utilizing the Da Vinci System for sub-millimeter precision and rapid recovery.
- **Hypospadias Excellence:** Expertise in innovative "stentless" repairs for superior cosmetic and functional results.
- **Hepatobiliary Surgery:** Leading-edge interventions for liver and pancreatic disorders in children.

Milestones in Medicine

Dr. Gursev is credited with performing **India's First Robotic Liver Resection** and the **First Robotic Pancreatic Reconstructive Surgery** in the country, setting new standards for surgical oncology and complex reconstructions in pediatric patients.
